

Insurance Considerations for Educators

Educators are not employees of the Delta County School District. Families enter into individual contracts with an Educator for educational services. Therefore, the liability policy for Delta County School District 50J does not cover Educators.

Educators are encouraged to purchase a liability policy for individual coverage in case of an incident especially if their instruction time involves transporting Learners. Resource Consultants are encouraged to purchase a liability policy in case of an incident if they transport Learners as well.

Special student insurance policies may be purchased by families to extend coverage to 24 hours a day under all circumstances or for participation in particular sports or for travel situations not covered by the district policy. Inquire at the district office about these insurance policies.
