

## DAC Meeting - October 6, 2008

Present: Amy Perkins, Amy Bryant, Angela Toothaker and Barb Hulet.

- Amy P. handed out a copy (see hard copy in office note book for DAC) of all the documents she received from the D.O. regarding the charges for the 2008-2009 year. This packet also include the agenda for the first District Accountability meeting (set for 10/07/2008).
- The group reviewed the charges and agenda to help prepare our rep for the meeting. We all that it would be great if a Learner from the Student Task Force would attend the D.O. Accountability meeting with our rep. Rian Perkins will go to the first meeting as the rep for the Student Task Force.
- Scantron-As a group we discussed why we have Scantron three times a year for our students. Some parents feel that it is over welling for the kids. Especially at the beginning of the year, we could just lose this first test. It was discussed that we could change the number of test taken based on a child's proficiency level on the most recent CSAP test. A policy proposal would need to be made for next year.
- Odyssey Ware-we feel that it is nothing like the OW dicks that families have used. The educational content is the same but the user programs are not (the school calendar is a good example). The group also discussed concerns about privacy.
- Google Land – how private are our documents?
