

Present: Gerry, Angela, Trona, Cheryl, Caryn, Dolly, Elaine and Jeff.

- Additions to the newsletter for Gerry.
- Parent Conference-Discussion over attendance, sale of shirts and yearbooks and work shops.
- Stewards meeting tonight at North Fork Office.
- The Quarter Mile Math disks are not working. We have families that are trying to use this curriculum. It is a menu item so we need to get this worked out ASAP.
- Elaine will contact Aaron Clay and ask if we can post, on the website, the results of the educator feed back forms.
- Dolly has visited with the Plato rep about the concerns we have with the last training. What might future trainings be like?
- Trona attended a payroll law class. She has a computer program that will help her with better job descriptions-she will start with the RC role. She will define if we are going to be exempt employees (hours not tracked) or non-exempt (hours tracked). She hopes to be done in about three weeks.
- FSI final conference: MaryLee Layton-Couch attended. She received the Citizenship Award and the runner up for best overall student. While in the area Trona and Dick attended an open house for the League of Charter Schools. They had an opportunity to met board members.
- There are lots of continuing education opportunities coming up. Trona will get the details for us.
- Families should be about to start using the online curriculums by the first part of August.
- At Tuesday Training Angela will have the new RCs to sign up for committees. She will also hand out enrollment packets and student registration forms.
- Jeff had only three “returning” families not attend the required orientation. We have 60 to 70 Learners on the waiting list. Lists were given to RCs last week.
- Elaine and Cheryl will put together a process for Learners to follow when signing up for menu items.
- When families start their online journaling in August they will need to include all of July’s information within the first weeks dialog.
